COPPER INSTALLATION CABLE

DATAWAY Copper Installation Cable 305 m / roll, CAT6A, FTP/STP, LSOH, CPR class DCA

Copper LAN installation cable for structured cabling horizontal links and building network infrastructure.

Product Identity

BRAND

DATAWAY

PART NO.

DW-6A-UF-LSOH-305

EAN

8586026271867

Overview

DATAWAY copper installation cable is designed for fixed structured cabling links between telecom rooms, patch panels, outlets and network cabinets in office, residential and light commercial projects.

Key Features

- CAT6A performance category
- FTP/STP shielding construction
- LSOH jacket, CPR class DCA fire class
- 305 m / roll package length
- Suitable for patch panel to outlet permanent links

Technical Specifications

DATAWAY Copper Installation Cable 305 m / roll, CAT6A, FTP/STP, LSOH, CPR class DCA

Ordering Information		Specification
Part Number		DW-6A-UF-LSOH-305
SKU		10483
EAN		8586026271867

Cable Construction		Specification
Category		CAT6A
Shielding		FTP/STP
Jacket		LSOH
Package length		305 m / roll
Reaction to fire class		CPR class DCA
Conductor		solid copper conductor 0.55 mm 23AWG
Cable diameter		7.7 mm

Electrical / Performance		Specification
Supported protocols		10G Base-T
Bandwidth		500 MHz
NVP		78-80
PoE support		PoE. PoE+
Operating temperature		0 to +50 degrees C
Pulling force		100 N

Published Product Parameters		Specification
Package length		305 m / roll
Color		Grey (RAL7035)
Weight		29 kg
Temperature		0 to +50 degrees C
Category		CAT6A
Pulling force		100 N
