STAINLESS STEEL BANDING

DATAWAY Stainless Steel Band 19 mm x 0.7 mm, SS304, 50 m Roll

Stainless steel banding for outdoor telecom cable fixing, pole mounting and FTTx installation.

Product Identity

BRAND

DATAWAY

PART NO.

DW-ST-SS304-197-50

EAN

8586026270242

Overview

DATAWAY stainless steel banding is supplied in roll form for securing telecommunications cables, distribution boxes, brackets and accessories to poles or support structures. SS304 material provides robust mechanical performance and corrosion resistance for indoor and outdoor structured cabling and FTTx deployment.

Key Features

- SS304 stainless steel band for outdoor telecom fixing
- 50 m roll format for project and installation use
- Compatible with stainless buckles/clips and tensioning tools
- Suitable for pole mounting, cable routing and FTTx accessories
- Corrosion-resistant metallic construction for long service life

Technical Specifications

DATAWAY Stainless Steel Band 19 mm x 0.7 mm, SS304, 50 m Roll

Ordering Information	Value
Part Number	DW-ST-SS304-197-50
SKU	1203
EAN	8586026270242

Mechanical / Construction	Specification
Band width	19 mm
Band thickness	0.7 mm
Roll length	50 m
Material	Stainless Steel 304
Weight	5.29 kg
Surface	Smooth stainless steel band, roll supplied

Application / Performance	Specification
Corrosion resistance	Suitable for outdoor cable fixing applications, SS304 reference
UV resistance	Inherent metallic UV resistance
Installation	Use with stainless steel buckles/clips and banding tensioning tool
Application	Pole mounting, telecom cable fixing, FTTH/FTTx outdoor installation
Operating environment	Indoor/outdoor use; avoid direct contact with incompatible metals where galvanic corrosion may occur

Published Product Parameters	Value
Roll length	50 m
Weight	5.29 kg
Band thickness	0.7 mm
Material	Stainless Steel 304
Band width	19 mm
