

CAT6A F/UTP patchcords

Patch cable, FTP version, category 6A. The conductor cross-section is AWG26. The connector contacts are covered with a 50µm layer of gold. Patch cables are part of a comprehensive system of products for structured cabling.

There are several common lengths of patch cables to choose from. All cables are certified according to internationally recognized standards. Thanks to the use of high-quality material, they are characterized by excellent transmission parameters and long service life.

PartNo	DW-F6A-xxx
Category	CAT6A
Bandwidth	500 MHz
Ethernet support	10 Gbps
Conductor wire size	26AWG
Lenght	0.25m – 20m
Material coat	LSOH
Colour	Yellow, White, Red, Green, Blue, Grey
Contact plating	50µm gold
Conductor type	Copper stranded wire
Cable diameter	6,0 mm
Shielding type	F/UTP
