

Box FT-A-2015

FTTx box DATAWAY FT-A-2015 is a compact optical distribution box designed for mounting two SC simplex or LC duplex adapters and up to two optical couplers (or four in dual connection).

It represents a practical solution for smaller optical networks, server rooms and telecommunications distribution boards, where space is limited and a high fiber capacity is not required. The box has an IP31 protection level, which guarantees reliable protection against dust and water droplets.

Main features:

- Designed for 2 SC simplex adapters or 2 LC duplex adapters
- Dimensions: 129 x 83 x 24 mm
- Possibility of installing 2 couplers (4 in dual configuration)
- Compact dimensions - ideal solution when space is limited
- IP31 protection level - resistance to dust and water droplets
- Suitable for FTTx, server rooms and smaller optical distribution boards
- Easy assembly and handling
